

Granite Care and Maintenance

Natural Stone is porous. We recommend that you use care and maintenance products that are specially formulated to protect and enhance the beauty of your granite. Since your stone is sealed, clean up is usually easy.

Do's

- Do clean up spills immediately
- Do use trivets or mats under hot dishes and cookware
- Do use coasters under glasses, especially if they contain alcohol or citrus juices
- Do clean surfaces regularly with specially formulated granite cleaner
- Do thoroughly rinse and dry the surface after washing

Don'ts

- Don't use vinegar, lemon juice or other cleaners containing acid
- Don't use bleach, ammonia or other general purpose cleaners
- Don't use abrasive cleaners such as dry cleansers or soft cleansers
